# Know everyday uses of magnets

Read the passage about “cow magnets”  
and answer the questions.

Cows love to eat grass. Sometimes the grass has small bits of metal hidden in it and the cows eat the metal by mistake.

The metal bits can harm the cows. So, farmers can feed the cows a special magnet called a “cow magnet”.

This attracts the metal bits into one place, so they don’t harm the cow.

What do cows love to eat?

---

What might the cows eat by mistake?

---

Who looks after the cows?

---

How do the farmers give the cow the magnet?

---

What does a “cow magnet” do?

---

a cow magnet

**Stretch:**
