

Explore how animals change over time

Create the perfect predator for each of these environments. Label your diagrams to help explain how your animal would be well adapted

polar

ocean

rainforest

desert

Stretch:
Explain how your animals are adapted to the conditions.

Challenge:
Draw adapted animals and label their new features.

Explore how animals change over time

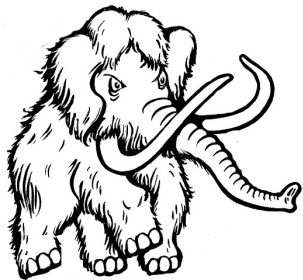

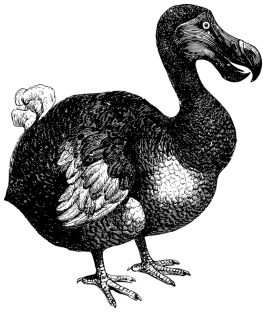

Research and find out how these animals became extinct.

animal

lived: time/place

how it became extinct

Stretch:

Explain how each species of animal became extinct

Challenge:

Name each animal and think of an idea of how it might have become extinct.
